

"100" LYRICS

Yo this track right here's experimental
 I grabbed the pencil
 Then said "Eh - maybe I should flow off the mental"
 Christ said go don't worry take nothing with you
 I hopped on this beat - said speak through me - I'm a let u
 Make me a vessel - Let Every step set up venue
 Rah rah applause not me - but the triune
 Bang - shake up stir - cook music - Utensil
 Achoo achoo - all of you - yes god blessed you
 Splash sprinkle drop grace right in the stew
 His presence is real Deal - make meals it's sheep food
 I renew - with beat grooves - For people to see through
 The mask - no yellow green suits
 he Jim Carried his cross up the peak - truth
 Is not a thing he's a person - you see fool
 I am too - but ever since he got me
 On the mic became rocky - my soul worked out Pilates
 Many are walking dead - but me I ain't a zombie
 Ehhh - ugh - no reason for the grunting
 Skat-rat-a-tat raps that bubble up - not flat
 Clap clap - for the tracks - heart burn - I'm that phat... mass
 Dot com with the style
 Ayo Dust when mass matics 3 is coming out?
 It's been a while - this flame will simmer down
 This world renown faith I say and spit it proud
 Will never chicken out - Flagrant I spit it foul
 Now Da' Professor/Bone Collector ankle break --- click click blow!
 Shot swish - his grace we never missing out
 Do not be afraid - be soiled and plant twist the valve
 He's in the clouds - no in ur heart just listen now
 Go to your inner room do not just sit and browse
 How oh how can we ever build a house
 On weak foundation - shouts out to FoundNation
 And all the fam that stands for sound faith when
 most kats make pacts give daps and pound satan
 Time to impregnate minds what ya'll cravin
 Is the language of The heart through art that I'm makin
 Yeah been in the lab -Training to hit with Jabs
 It's more than kicks and claps -Hi hats and simple raps
 AMDG's a lifestyle for here and now
 Until Forever whether the culture is this or something else
 Yeah I do it for the people - the way I seamlessly weave through these beats to teach you
 Peace Be wit' you - I kick juijitsu - rip instrumentals remove the sinful life
 Just gotta place it in his hands

"100" LYRICS

It's what I did - it's how I'm able to stand
 I'm not here for fan's - no eninem Stan's
 Obsessed no get blessed in silence we Def Jam
 Bars I got those - mics I rock those
 Call me paleontologist uncover rap's fossils
 Promise to live a life like me nombre Es santo
 Team is all is love can you tell i'm his disciple?
 Most won't ride cuz they're afraid of the potholes
 I got that real insurance I ain't talking 'bout the Geico
 Straight from the get go should know this ain't a typo
 From the jump man I'm hip-hop baptized in the Jordan Michael
 You see how I reach out -And teach wow
 Carbon dioxide breathe out to the tree house
 You know im talking the one with the three nails?
 Relieved I live in peace now - Got a clean style
 Bought with a price, one of a kind - retail
 Men lets be men - it cant be just the females
 John 3:21 son's what i mean Child
 My style is free while all of ya'll just freestyle
 And this is just a freestyle
 The one who redeemed me you see he freed style
 Transcendent - understand what that means now?
 From this culture but it no longer binds me now
 This is what I'm living on the daily
 They see me joke around playing take being funny
 As something not contemplative but it's the joy in me
 Others don't know my daily struggles think more of me
 Just another bummy minority Hurting from these daily pains
 Joint custody - paying child support damn
 Baby momma drama - God has broken free the chains
 And taught me love that's unconditional
 Things are hectic but Peace is not something conditional
 It's inner dude - thank God for the daily rituals
 Go to daily mass - 30 minutes silent prayer too
 Read a chapter of New Testament
 Morning and evening prayer yeah this is what keeps me truly fit
 Once a week Holy Hour once a week
 Community with My rector Fr Martin we speak
 I know ya'll have all these pre-assumptions of me
 And I've been a rebel - before Anomaly
 And always had God in me
 But it didn't reach its height 'til Idente Community
 Yo I'm only 24
 entrusted with so much and God keeps giving me more

"100" LYRICS

All is love just did the Golden City Tour
 Did the digging through the dirt film but God was like "Nah"
 None of it matters if holiness I don't transmit
 I gotta play these cards right... I'm gambit
 JMJCAT SnapBack caps backwards
 But on Sunday mass shirt tie slacks for the master
 By his will I prove nothing can separate us see
 These are the lives of the saints in 21st Century
 Day by day inch by inch moving like centipedes
 If I ever get too full of myself the Coach is benching me
 Obedient to superiors word I need it yes
 Emptying me to zero I know he will go 100 quick
 Obedient to superiors word I need it yes
 Emptying me to zero I know he will go 100...
 100 wa wa 100
 Real recognize real - all ya'll dudes frontin
 To be the illest rapper as a teen is what I wanted
 Now the pieces been put together like Exodia's been summoned
 Sometimes I listen back to tracks and I'm like damn
 Is that what happens when I'm in front of a mic stand?
 All praise to the one at the right hand
 his face pop up when my songs get shazzamed
 Yo What you think I said boy?
 just repent and I'm cleansed heaven sent boy
 No trends - say amens cuz I'm employed
 By the most high - every rhyme yes I enjoy
 Changing Hip Hip engines I'm pep boys
 Words came from paradise Sent from Saint Croix
 Holy Cross now dwelling on streets of Ny
 I spit that hard doo doo now the beat got hemeriods
 Nasty - so sick - Ebola
 Antidote came as soon as I came to know God
 Had your boy leant like Henny with Coca Cola
 Sober but ecstatic from the practices I go by
 I think God's Hispanic cuz it hit me like Toma
 I couldn't believe it I was looking like Saint Thomas
 Felt the hands, feet, and the side - was like Oh God
 Now evangelizing the East with no co-signs
 These steroid injected sentences
 Over records - leading people to their penances
 I write in notepads and its a foreign penmanship
 In the spirit canon continuous and my regimen -
 100...
 Nah mean?....
