Verse 1

Whoop! what is coming out your stereo?
Once you hear "ha ha" you already know
That this boy's about to put it down-
Sound underground infused with the spirit wow
live --- that's how we do it - spit fluid, music
moves through medullas with full truth yes
The Father called me by name
Not labeled John Doe
I must prepare arrival of the head honcho
Christ the light of life lives in my console
I'm consoled in this game of life
'Cuz I got soul
Living in the spirit I got the cheat code - on
another level
Bonus round - let's go!
tis the season - I'm free of demons - these
people just can't believe how I'm frequently
screaming jesus - on beats and relieving people
to teach 'em true love in freedom
Keep speaking
Until the culture of death is defected

Verse 2

This that joy of the resurrection
I am living like the ascension
Think about it - just for one second
His body's now in heaven -
We the body - You get it?
Now I'm living like I'm in heaven
Receiving that bread unleavened
While rocking some fresh 11's
Yeah this gentleman's
Never settlin' - evident - how I'm not of this world
But still in this culture stay relevant
So many elephants not spoken in this place
Don't stand up for truth "what will my friends say"
We'd rather reject and let the Sin say
Not in my house - Dikembe
All we need is confession - get back - friend base
Jesus came died and he rose now our rent's paid
This that feeling of shape up - fresh skin fade
Trust in his Mercy... Melvin Windley

I said Christ is alive
The Heavenly Father is alive
The Holy Spirit is alive
I said this church is alive
Mother Mary is alive
St. Joseph is alive
All the Hosts of Heaven are alive
Thank God I'm alive
