

**Moment of Peace (6x)**

**Just give me one  
Moment of Peace**

*(Verse 1 – The Symbol)*

I come before you Lord with lots to get off my chest  
My life is looking like a teenage room - it's a mess  
Needless to say I'm stressed  
Everyone sees me blessed  
But inside there's so much noise voices in my head  
Too many thoughts and ideas –  
People who need my love  
So much to do with no sleep  
Coffee's become my drug  
Just to sustain - maintain –  
Headaches - daily - strain  
Wanna praise your name –  
Lord but it seems I can't -  
Oh Holy Joseph Saint please intercede for me  
So many young I've given for mystical paternity  
Financially I'm suffering - so much work no pay  
My mom tight - cuz I can't pay nothing  
Plus a ring - for proposal -  
Right now is impossible  
And Christian's tuition's killing my pockets too  
Everyone demands of me like I don't got none to do  
And I got none but you...  
So may this Eucharist  
Give that peace I need to pull through  
Give myself to you

*(Chorus)*

As I sit here and contemplate,  
And watch my former life pass away  
Only your presence shall remain  
Eee - Eeee - yeah! (2x)

*(Verse 2 – Stephani)*

**Just give me one Moment of Peace  
With everything going on**

**I just need to breathe  
Believe the beat**

**Bumpin' in my ribcage**

**But with my lips stained –**

**Can I leak the weak?**

**Forget where I've been 'cuz you keep my feet**

**Steady on the battle field;**

**Chaos all around –**

**But there's nowhere else I'd rather be**

**I'm holding my ground,**

**Embolden me now!**

**The tool for this sound**

**Was sold for The Crown,**

**And you lift up my gaze**

**To embrace all your grace**

**And in you**

**I find the strength to say**

**“Whatever I face,**

**you are still The Way,**

**Whatever may come,**

**Your praise on my tongue,**

**Whatever the case**

**You will keep me safe,**

**Whatever may come**

**Let your will be done”**

**And with you**

**I find the strength to say...**

*(Chorus)*

As I sit here and contemplate,  
And watch my former life pass away  
Only your presence shall remain  
Eee - Eeee - yeah! (2x)
