

# PEACE BE WITH YOU

## LYRICS

All my life ... Tryna rock steady  
Now I rock - and cut up these tracks just like confetti  
A fairly odd parent of rhymes like turner Timmy's  
Holy Spirit's fire fell I'm burning Serengeti  
I'm ready I'm ready Spongebob I'm fishing for jelly  
Bread of life plus the word... Yeah I'm feeling skippy  
P, B, and J - The People, Bible, and Jesus  
Cast lots when I rock cuz this robe is seamless  
Church bells ring choirs sing the thing is  
This lifestyle of mine is not belief system - opinion  
Perpetrators get caught word up she wrote murder  
Beyond going ham man I'm chopped cheeseburger  
Can he go Any further filled with joy and Great fervor  
Gourmet Maintain the delicacy Arizona  
99 cent cans - for the fans cuz I'm urban  
Sort of absurd with the words - A catholic? That's unheard of

I am in the Zone right now - right now  
And nothing can take me away

On this day, I must say  
Shalom to you - Namaste (4x)

Nothing more nothing less than love is what I PERSUE  
Got sent home to The Lord - I broke my curfew  
So now it's not I - my life's heavens commercial  
Whoops did I do that? These Barz Urcele  
Spitting ill raps every-time I step in the booth  
Love the persecution it means I'm closer to the truth  
These people got it twisted like a bottle of goose  
All this tension gotta stop homie get a masseuse  
These people want proof -  
So I'm raising the roof  
Bringing that thunder I'm sorta like Zues  
Breaking the rules  
But I ain't Bishop from juice  
Spitting flows Following the way and the truth  
I had to leave old ways - chucking them deuce  
Elevate my spirit, let the flesh reduce  
Go ahead and get with the team said get with the crew  
I am The Symbol but can't be him without you

I am in the Zone right now - right now  
And nothing can take me away

On this day, I must say
